Memo for the Record

From: [REDACTED]

25X1A

1. Discussion of objectives for 26 November was deferred to 26 November for the following reasons:

- a. Nobody who knew anything about the target listings was on duty at the Pentagon.
- b. NPIC had suspended courier service for the day.

2. I checked with the Duty Officer at NPIC and read the preliminary IPIR at the Watch Office. On the basis of this general information I judge that our principal recommendation for 26 November should be a low-level mission over [REDACTED] (Casilda Port), [REDACTED] (Casilda Staging Area), and possibly Las Villas, part of the search area. Early tomorrow I should have enough information to make more detailed recommendations.

3. BK coverage on 24 November was limited to one short flight into the Casilda-Trinidad area and spotty coverage of the Santiago de Cuba - Guantanamo area.
